Readers' Room Winner Announced!

Our readers sent in [47 before-and-after bedroom makeovers](#), and you voted on which one deserved a spot in our next issue.

The winner is a revamped master bathroom in San Francisco's Bernal Heights by [McElroy Architecture](#). The once dark space got a bank of new windows, a new tub, double vanity and walk-in shower. The eye-catching tile pattern was created with Heath Ceramics Seconds, saving the homeowner money and creating a look that is hard to replicate.
